

Borehole Drilling – Planning, Contracting & Management A UNICEF Toolkit

News: A UNICEF Toolkit: Borehole Drilling - Planning, Contracting &

A UNICEF Toolkit: Borehole Drilling – Planning, Contracting & Management- has been developed to bring uniformity to practices and to guide UNICEF staff involved in borehole procurement and the supply of equipment, as well as contracting consultancy services for borehole siting and supervision.

All modules of the Toolkit are available [here](#) on our website

Cost Effective Boreholes Partnership of the Rural Water Supply Network by UNICEF and SkatFoundation
