International Swiss Red Cross Workshop

Skat together with bp_consulting facilitated the International Workshop of the Swiss Red Cross in September 2016. The International Workshop brought together more than 80 delegates from all over the world.

Country:

Switzerland

Project Period:

September, 2016

Services Provided:

[Knowledge Sharing, Networking, Training & Capacity Development](#)

- Knowledge sharing and facilitation

Name of Staff involved and functions performed:

Project Manager: [Bertha Camacho](#)

Partner: Babette Pfander, bp_consulting

Name of Client:

Swiss Red Cross

Description of the Project:

During the International Workshop, Swiss Red Cross delegates and staff gathered together to discuss the SRC IC Programme 2017-2020 and developed ways to implement it. The workshop gave them an opportunity for sharing knowledge and experiences on selected topics in the themes of Health, Disaster Risk Reduction and Capacity Development / Organisational Development.

With a long-standing experience in the area of knowledge management, the facilitators transformed the International Workshop in a moment of learning and dialogue for the participants. The workshop objectives were achieved in a playful context and using different methods. The facilitators provided additional support before, during and after the Workshop in the:

- development of the workshop concept and the program
- integration of the documentation practice into the workshop planning and facilitation
- participation in the post - workshop evaluation
