Country:

Central America (Nicaragua, Honduras)

Project Period:

May 2012 - Oktober 2016

Services Provided:

Backstopping & Technical Advice

- Programme steering and backstopping

Name of Staff involved and functions performed:

Project Manager and backstopper: [Florian Klingel](#)

Operational Regional Director, resident in Nicaragua: [Urs Hagnauer](#)

Backstopper: [Bertha Camacho](#)

Name of Client(s):

Swiss Cooperation Office for Central America, Managua, Nicaragua

Description of the Project:

Skat has been entrusted to support with an expert for the position of the Operational Regional Director, based in Central America in order to steer the Swiss Water and Sanitation Programmes of the Swiss Development and Cooperation Office in Central America. Additionally targeted backstopping support from Skat Head Quarters is provided on demand.

The main activities of the Backstopping Mandate are :

- Ensure with specific attention to the efficient implementation of the programme WASH in Small Towns and Schools, including the tender processes, contract management, quality assurance and outcome measurement.
- Supervise implementation of Project Cycle of all four SDC Water and Sanitation Programmes in Central America, including assuring coherence between programmes (Indicators, approaches, modalities, etc.), and administration of financial and human resources.
- Promote knowledge management with other water and sanitation programmes with the objective to create strong Swiss expertise in selected areas.
- Participate in the design of a new Water and Sanitation Programme and manage the transition coherently between current programmes to the new programme.

Swiss Resource Company
Infrastructure Development

- Manage SDC's contributions to the Water and Sanitation Program (WSP) and to AquaFund of the Interamerican Development Bank
