Description of the Project:

Services provided by Skat: Preparation of draft regulations for the new Water Law in Moldova

Objective: To develop priority regulations regarding water sources quality that comply with the new water law and are coherent with European legislation and are passed for Governmental approval.

Activities: Preparation of draft guidelines for public consultation:

- Preparatory works to collect and analyse all relevant information in preparation of the workshops
- Prepare and conduct a start-up workshop and planning workshop
- Drafting guidelines, revising and adapting drafts in working groups
- Prepare final draft regulations for public consultation
- Prepare final regulations based on comments received from public and official consultations

Results Phase 1: Draft guidelines ready for Government approval:

- Regulation on Monitoring of the Status of Surface Water and Groundwater
- Regulation on Ground Water Protection
- Regulation on Prevention of Water Pollution from Agricultural Activities
- Regulation on Quality Requirements for Surface Water

Results Phase 2: Draft guidelines ready for Government approval:

- Regulation of the Management of Floods
- Regulation of the Management of Drafts
