Uganda Country Status Overview (CSO) 2010

Skat was mandated to assess the performance of Uganda in delivering the Water Supply and Sanitation MDGs based on benchmarking of sub-sector service delivery pathways, past spending and future needs versus commitments. Uganda is one of 30 countries being analysed as part of the Country Status Overviews.

Country:

Kampala, Uganda & Switzerland

Project Period:

July 2009 to June 2010

Services Provided:

[Assessment, Monitoring & Evaluation](#)

- Consultancy

 Swiss Resource Centre and
Cooperation Unit
Name of Client(s):

Water and Sanitation Programme (WSP), World Bank

Description of the Project:

The study utilised the Country Status Overview (CSO) methodology to examine the flow of Government and Donor investment into Water Supply and Sanitation service delivery. It undertook an analysis of the bottlenecks along the service delivery pathway by examining policies and planning, budgets and expenditure, outputs and use of improved infrastructure as well as behaviour change.
