UIHCR's Results Framework: Impact and Performance Indicators - Appendix 5								
	Objective Code & Description	Comments by Sht. (objectives)	Impact Indicator or	Impact Indicator or Output Description	Comments by Sht. (outputs)	Output Codes	Performance Indicator	Comments by Sht. (impact and performance indicators)
634			Impact Indicator	Support for fisheries activities provided	Need to better make the output more specific. The word "support" make these outputs too general	SMNP	# of sessions of training provided	make better use of percentages, and also a gender disaggregation This is hard to measure unless the projects provide connections per household. Otherwise it is more realistic to measure the points of connection established per location. Similar situation to internet. Only if telephones are provided per person, this can be measured. Otherwise there should also be an indicator that measure the number of telephones sold/distributed / installed. Also number of service points established.
635				Support for crop production provided		SMNP	# of persons benefiting from fisheries activities support	
636				Support for home gardening provided		SMNS1	# of persons receiving home gardens support	
637				Internet access facilitated		SMNS1	# of persons gaining access to the internet	
638				Access to telephone services facilitated		SMNS 6	# of persons gaining access to telephone services	
639				Receipt of foreign remittances facilitated		SMWU1	# of persons helped to receive foreign remittances	
Rights Group 6 - Durable Solutions								
640	Durable solutions strategy developed, strengthened or updated	Need to better define what is meant by "durable solutions" (UNHCR language). As an objective it is not clear and difficult to	Impact Indicator	Extent durable solutions strategy identified and agreed				This indicator is not measurable. "Developed, strengthened, updated" is missing.
702			Output	Concept of a comprehensive durable solutions strategy promoted among all relevant stakeholders	Not specific enough.	6PCB1	# of persons reached by promotion efforts	Hard to measure
703				Comprehensive durable solutions strategy developed and agreed among all relevant stakeholders		6PCB6	Comprehensive durable solutions strategy developed and agreed among all relevant stakeholders	Hard to measure
704				Comprehensive durable solutions strategy implemented and progress monitored		6PCD1	Comprehensive durable solutions strategy implemented and progress monitored	Hard to measure
705				Durable solutions profiling of population conducted		6PCD6	% of population profiled	
706	Potential for voluntary return realized	This objective is not clear. The word "potential" makes it vague.	Impact Indicator	% of PoC with intention to return returning voluntarily				Improve the wording of this indicator
707				Extent PoC able to make an informed choice concerning return				Transform these indicators to percentages
708				Extent PoC able to return with means of livelihood or productive asset				change to: percentage of PoC which have returned voluntarily, safely and with dignity. In this group of indicators, it is important to address the situation of the "returning place". Are the conditions of the place of return good enough to have people returning?
709				Extent return has been voluntary, and in safety and dignity				Quality of return packages? Are they appropriate to the needs?
710			Output	Return packages provided	In general: The outputs should be better organized. The topics addressed are dispersed.	6PFB1	# of persons receiving return packages	
711				Survey of interest in return conducted	This output should go before 6PFB1	6PFB6	# of survey of interest in return conducted	
712				Tripartite agreement concluded	This should be the performance indicator of 6PFD6	6PFD1	# of tripartite agreement concluded	
713				Tripartite Commissions established and sustained		6PFD6	# of tripartite commissions established and sustained	This indicator is not well defined. Better to address the results of the tripartite commissions
714				Mass information provided with age, gender and diversity perspective		6PFE1	# of persons reached by mass information campaigns	Hard to measure. Easier to measure are the number of campaigns, number of promotion material produced with gender and diversity perspective, number of material distributed, where and when
715				Go and see visits extended for refugees and IDPs		6PFE6	# of persons participating in go and see visits	Any benchmarks here?
716				Information sessions to increase awareness of rights to housing and rights to access to land conducted		6PFG1	# of persons participating in sessions	Any benchmarks here?
717				Individual voluntariness of return verified		6PFG6	# of sessions	include number of participants in sessions
718				Safe and dignified returnee transport provided		6PFH1	# of verifications of voluntary return	Any benchmarks here?
719				Special assistance for especially vulnerable individuals (EVIs) provided	Too general. There needs to be a connection between the type of assistance and the objective. Is the assistance related to providing transport, information, etc. How does it differ from previous outputs?	6PFH6	# of persons provided with safe and dignified returnee transport	Important to define what it means "dignified" (development of categories). Are whole families returned? Are they separated? What are the standards?
720				Information dissemination provided	Change output to: "information on conditions of return"	6PFJ1	# of EVIs receiving assistance	Any benchmarks here?
721				Cross-border coordination mechanisms established		6PFJ6	# of persons receiving information on conditions of return	
722				Cash grants provided	add: "for safe return"	6PFK1	# of cross-border coordination meetings held	need to be more specific with regards to the mechanisms. Development of categories
723				Monitoring forms established	change to: monitoring system established	6PFK6	# of cash grants provided	add: for returning
724				Individual voluntary repatriation support provided	important to clarify what kind of monitoring	6PFM1	# of monitoring forms completed/ analyzed	number of persons trained for monitoring
725					This output appears repetitive to the previous ones	6PFM6	# of individual voluntary repatriation support	Any benchmarks here?
Rights Group 6 - Durable Solutions								
726	6P1 Rehabilitation and		Impact	% of PoC below national poverty line				More detailed data will enable to monitor
