

RFP02/2021: River Basin Management Plans for Kosovo

QUESTIONS & ANSWERS N°7 – 25.03.2021

Q1: RFP Page 29 specifies for the Team Leader qualifications that the “Minimum M.Sc. in relevant field (Water Resources Management, Environment, Civil / Hydraulic Engineering, Ecology or similar)”. Is a degree in “Electrical Engineering” considered acceptable as a relevant field of educational background for the Team Leader.

A1: The proposed educational background (Electrical Engineering) does not respond to the requirements of this RFP. Please consider proposing a person with an educational profile closer to the actual requirement.

Q2: Would it be a conflict of interest if, as part of the expert team, the bidder involves a local expert from Kosovo who is a nominated representative to different Program-backed working groups / advisory committees (e.g. Advisory Committee on Water Education).

A2: There is no conflict of interest to involve local experts who are participating in the different Program-backed groups, including the Advisory Committee on Water Education. These groups are functioning on a voluntary basis and there is no association of their members with this procurement case.
