

Our new implementation project: the Groundwater Management, Use and Protection Programme in North Macedonia

We are proud of the new implementation project [SDC](#) has mandated Skat Consulting with: the Groundwater Management, Use and Protection Programme (GWP) in North Macedonia. It intends to enable a collaborative, effective and more transparent management of groundwater resources in the country. To this end, the Programme will strengthen the relevant authorities as well as civil society. The budget is 12 million CHF and the estimated duration of the Programme is 11 years (2023 - 2033).

Skat Consulting is part of a consortium with the local company [PointPro Consulting](#) for this project.

Lead: [Frank Wiederkehr](#) and [Sandra Fürst](#).
