

Webinar in Spanish

Policies, participation and cooperation for the management of WEEE in developing countries

In order to continue strengthening the management of WEEE in Latin America, we cordially invite you to participate in this StEP Webinar. We will present the "Practical Guide to the Systemic Design of Policies for the Management of WEEE in Developing Countries", which is a product of the Sustainable Recycling Industries Program (SRI) of Switzerland. As an example of practical experience, we will also present the design of the WEEE management policy in Colombia.

Date and time: Tuesday, 24th of April, 16:00 - 17:30 (Central European Time = Berlin)

Please confirm your interest in taking part by sending an email to info@skat.ch and you will receive the connection details to the Webinar.
